Features

- Simple operation and installation
- Attractive, flame retardant (UL® 94V-0) plastic panel
- Fits standard single-gang electrical box
- Visual indication of activation

Description

The Emergency Call Switch features a push button switch with DPDT (double-pole double-throw) contacts which are available via wire pigtail. The switch comes pre-wired with both normally open terminals available individually.

The switch has a mechanical eye arrangement inside, which provides for positive indication of activation without the need for external power. The switch features push-on push-off operation. The SF154B is designed as a single-gang (UL® 94V-0) plastic panel that fits a standard single-gang electrical box.

Specifications

Dimensions:

Height:	4.5"	(115 mm)
Width:	2.8125"	(72 mm)
