Business Referral Letter

June, 04, 2021

Total Medtech Inc. as service provider in healthcare sector is involved in equipment install/ service in GTA area. We also provide consultancy directly to select hospitals, nursing homes and architects involved in this field.

We use **ControlledCare Systems** in multiple projects since 2017 and we are more than pleased with their work. Equipment and solutions provided by **Controlledcare** are extremely reliable, easy to deploy and very well supported.

I can name two projects done in partnership with them involving public funds, all other private contracts are subject of NDA and I can not disclose any information regarding our scope of work.

If you like details about the two public funded projects please send me a written request and I will be more than happy to provide them.
